ABOUT ME

Security and Monitoring Engineer, specialized in integrating network monitoring solutions, primarily open-source, within various large-scale client architectures. With solid experience in managing IT infrastructure, including responsibilities as an IT Manager, I aim to further strengthen my expertise in system monitoring and operations within a dynamic and innovative IT department.

WORK EXPERIENCE

- Monitoring and Security Engineer, ORSENNA, MAISONS-LAFFITTE, FRANCE**
Jan 2024 - Present
- Integration and optimization of monitoring solutions via SNMP, NPRE, WMI, Syslogs, and NetFlow (CheckMK, Zabbix), as well as endpoint management tools (Lansweeper, ManageEngine Endpoint Central).
 - Deployment of security and auditing solutions (Netwrix Auditor, Privilege Secure, ManageEngine ADManager Plus).
 - Expertise in monitoring, asset management, and IT infrastructure security.

- IT and Network Infrastructure Manager, ORSENNA, MAISONS-LAFFITTE, FRANCE**
Feb 2022 - Dec 2023
- Management** of the company's IT infrastructure and internal network.
 - Security and Network:** Administration of Stormshield firewalls, configuration and monitoring of Cisco and HP switches.
 - Microsoft Systems Management:** Administration of Windows Server, Exchange, DNS, DHCP, and MSSQL servers.
 - Virtualization and Backup:** Deployment and maintenance of VMware ESXi environments and Veeam Backup solutions.
 - User Support**

- Founding Partner, CRYPTO-RIG.FR, ENNERY, FRANCE**
